

# Ilya B Tsyrllov - Journal Publications

Richard Lathe, Ilya B. Tsyrllov Do AD/PD Leukocytes Respond Differently to Herpesvirus Infection? Altforum Journal, October 2019

Tsyrllov I.B., Shur I.N., Wu J.S., Roumak V.S. 2005-2007 Global Spread of H5N1: Causative Role of Body Burden Dioxin in Up-Regulating Gene of Influenza Virus NS1 Protein in Chicken and Humans in Southeast Asia. Conference: Global Congress on Bacteriology and Infectious Diseases, Amsterdam, Netherlands, Jun 2018.

Tsyrllov I.B. A Worst Case Scenario of Chemico-Biological Interactions: Increased Dioxin Body Burden in Arctic People and the Dormant HBV. Conference: 10th International Virology Summit. Theme: Advanced Research and Emerging Issues in the Field of Virology. DOI: 10.4172/2161-0517-C2-078, Vienna, Austria. Jul 2018.

Tsyrllov I.B., Gelboin, H.V. Comparative Kinetics of Microsomal Purified and Recombinant Rodent P450 Monooxygenases Family 1. Conference: 22nd North American ISSX Meeting, Montreal, Canada, Jul 2018.

Tsyrllov I.B., Wu J.S., Shur I.N., Oshchepkov D.Yu. Human Herpes Viruses as a Novel Target for bHLH/PAS Dioxin Receptor-Arnt Transcription Factor: Basic Findings & Clinical Implications, Conference: Global Experts Meeting on Infectious Diseases, Tokyo, Japan, Sept 2018.

Ilya B. Tsyrllov, Jerome Wu, Irina N Shur, Dmitry Yu Oshchepkov Human Herpes Viruses as a Novel Target for bHLH/PAS Dioxin Receptor-Arnt Transcription Factor: Basic Findings & Clinical Implications September 2018. Global Experts Meeting on Infectious Diseases, Tokyo, Japan

Ilya B. Tsyrllov, Harry V. Gelboin Comparative Kinetics of Microsomal, Purified and Recombinant Rodent P450 Monooxygenases Family 1. July 2018. 22nd North American ISSX Meeting, July 15-19, 2018

Ilya B. Tsyrllov A Worst Case Scenario of Chemico-Biological Interactions: Increased Dioxin Body Burden in Arctic People and the Dormant HBV July 2018, 10th International Virology Summit. Theme: Advanced Research and Emerging Issues in the Field of Virology.

Ilya B. Tsyrllov, C.S.T. Woo. Irina N. Shur. Vladimir S. Rumak 2005-2007 Global Spread of H5N1: Causative Role of Body Burden Dioxin in Up-Regulating Gene of Influenza Virus NS1 Protein in Chicken and Humans in Southeast Asia. June 2018, Global Congress on Bacteriology and Infectious Diseases

Tsyrllov I.B., Wu J.S., Oshchepkov D.Yu. Transactivation by Body Burden Dioxin of Herpes Simplex Virus Genes and Cytokines Genes can Weaken the Host Antiviral Defense. Cell Science & Report. DOI: 10.15406/mojcsr.2017.04.00089. Jun 2017

Tsyrllov I.B., Shur I.N., Oshchepkov D.Yu. Human viruses: A novel target for bHLH/PAS dioxin receptor-Arnt transcription factor. Journal of Antivirals and Antiretrovirals, Dec 2017.

Tsyrllov I.B., Wu J.S., Appelbaum J., Shur I.N. AHR-ARNT SIGNALING PATHWAY MEDIATES TRANSCRIPTIONAL ACTIVATION OF HSV-1 IN GLIAL CELLS: A PATHOGENIC FACTOR THAT MIGHT AFFECT AD DEVELOPMENT. *Alzheimer's and Dementia* 13(7):P1438-P1439, 2017. DOI: 10.1016/j.jalz.2017.06.2252

Tsyrllov I.B., Shur I.N., Roumak V.S. The NS1A binding protein in alveolar epithelial cells as centerpiece of Influenza virus A lung injury mechanism mediated via AhR/Arnt signaling pathway. Conference: ERS International Congress 2017 Milan, Italy, Aug 2017. DOI: 10.1183/1393003

Ilya B. Tsyrllov, Irina Shur, Vladimir Roumak The NS1A binding protein in alveolar epithelial cells as centerpiece of Influenza virus A lung injury mechanism mediated via AhR/Arnt signaling pathway September 2017. ERS International Congress 2017

Ilya B. Tsyrllov, Irina N. Shur, Jacob Appelbaum, Jerome S. Wu AHR-ARNT SIGNALING PATHWAY MEDIATES TRANSCRIPTIONAL ACTIVATION OF HSV-1 IN GLIAL CELLS: A PATHOGENIC FACTOR THAT MIGHT AFFECT AD DEVELOPMENT July 2017. *Alzheimer's and Dementia*

Ilya B. Tsyrllov, J.S. Wu, D.Yu. Oshchepkov Transactivation by Body Burden Dioxin of Herpes Simplex Virus Genes and Cytokines Genes can Weaken the Host Antiviral Defense June 2017, *Organohalogen Compounds* ....

Tsyrllov I.B. Keynote Lecture on "Xenobiotical Virology: Basic Definition & Clinical Implications". CSDD-2016, Jul 2016.

Tsyrllov I.B., Shur I.N., Wu J.S., Roumak V.S. A Decade Later, Another Look at What Role in 2005-2007 Global Spread of H5N1 Played an Upregulation by Host Cell Dioxin of Gene Encoding Type A Influenza Virus NS1 Binding Protein. *J. Infect. Dis. Ther.*, vol. 4, p.6, Sep 2016

Tsyrllov I.B. Xenobiotical Virology: From Mechanistic and Epidemiological Studies to Medical Implications. *Biodiversity Data Journal*, Dec 2016.

Tsyrllov I.B., Wu J.S., Shur I.N. HSV-1 Transcriptionally Activated via AhR-Arnt Signaling Pathway in Glial Cells May be a Pathogenic Factor that Affect AD Development. *Alzheimer's and Dementia*, Oct 2016.

Tsyrllov I.B., Krivoschekov S.G. Higher Rate of AD Among Arctic Populations is due to Activation of Brain Inflammatory Pathways by Elevated Dioxin Body Burden: Mechanistic Approach to the Problem. *Alzheimer's and Dementia*, Oct 2016.

Tsyrllov I.B., Shamanina M., Furman D., Oshchepkov D.Yu. IN CILICO APPROACH FOR DISCOVERING FUNCTIONAL DREs IN REGULATORY REGION IN HUMAN GENES ENCODING MEMBERS OF Ah RECEPTOR SIGNALING PATHWAY. *Drug Metabolism Reviews*, Sep 20, 2016.

Ilya B. Tsyrllov Xenobiotical Virology: From Mechanistic and Epidemiological Studies to Medical Implications December 2016. *Biodiversity Data Journal*

Ilya B. Tsyrllov, Jerome S. Wu, Irina N. Shur HSV-1 Transcriptionally Activated via AhR-Arnt Signaling Pathway in Glial Cells May be a Pathogenic Factor that Affect AD Development October 2016. *Alzheimer's and Dementia*

Ilya B. Tsyrov, Sergey Krivoschekov Higher Rate of AD Among Arctic Populations is due to Activation of Brain Inflammatory Pathways by Elevated Dioxin Body Burden: Mechanistic Approach to the Problem October 2016. Alzheimer's and Dementia

Ilya B. Tsyrov, Marina Shamanina, Furman D., Oshchepkov D. IN CILICO APPROACH FOR DISCOVERING FUNCTIONAL DRES IN REGULATORY REGION IN HUMAN GENES ENCODING MEMBERS OF Ah RECEPTOR SIGNALING PATHWAY September 2016. Drug Metabolism Reviews

Ilya B. Tsyrov, IN Shur, JS Wu, VS Roumak A Decade Later, Another Look at What Role in 2005-2007 Global Spread of H5N1 Played an Upregulation by Host Cell Dioxin of Gene Encoding Type A Influenza Virus NS1 Binding Protein September 2016, ....

Ilya B. Tsyrov Keynote Lecture on "Xenobiotical Virology: Basic Definition & Clinical Implications" July 2016. CSDD-2016

Ilya B. Tsyrov. Andrey Pokrovsky, J. Wu, I.N. Shur Multidisciplinary approach to the trans-activation of human Hepatitis B Virus by body burden dioxin or dioxin-like polychlorinated biphenyls September 2015. Journal of Viral Hepatitis

Tsyrov I.B. IDIOTYPIC AND ANTI-IDIOTYPIC MONOCLONAL ANTIBODIES TO TCDD AS APPROACH TO STUDY GEOMETRY OF Ah RECEPTOR BINDING SITE. 13th European ISSX Meeting, Glasgow, Jun 2015.

Tsyrov I.B., Konenkov V.I. HBV-linked chronic inflammation and hepatocellular carcinomas in Arctic natives might be triggered by elevated body burden dioxin. Journal of Viral Hepatitis, Sep 2015.

Tsyrov I.B., Roumak V.S. Hepatitis B virus might be transcriptionally activated in Southeast Asian inhabitants due to effect of food contaminated with dioxins or polychlorinated biphenyls. Journal of Viral Hepatitis, Sep 2015.

Tsyrov I.B., Pokrovsky A.G., Wu J., Shur I.N. Multidisciplinary approach to the trans-activation of human Hepatitis B Virus by body burden dioxin or dioxin-like polychlorinated biphenyls. Journal of Viral Hepatitis, Sep 2015.

Ilya B. Tsyrov, V.S. Roumak Hepatitis B virus might be transcriptionally activated in Southeast Asian inhabitants due to effect of food contaminated with dioxins or polychlorinated biphenyls September 2015. Journal of Viral Hepatitis

Ilya B. Tsyrov, Vladimir Konenkov HBV-linked chronic inflammation and hepatocellular carcinomas in Arctic natives might be triggered by elevated body burden dioxin September 2015. Journal of Viral Hepatitis

Ilya B. Tsyrov IDIOTYPIC AND ANTI-IDIOTYPIC MONOCLONAL ANTIBODIES TO TCDD AS APPROACH TO STUDY GEOMETRY OF Ah RECEPTOR BINDING SITE June 2015. 13th European ISSX Meeting

Ilya Tsyrov DIOXIN-LIKE CHLORPHENOXY HERBICIDES MIGHT AUGMENT HUMAN COMMON VIRUSES ASSOCIATED WITH CELL MALIGNIZATION. IARC monographs on the evaluation of carcinogenic risks to humans. Supplement / World Health Organization, International Agency for Research on Cancer 06/2015; volume 113.

Ilya Tsyrov, Shur I.N., Wu J.S., Oshchepkov D.Y. A Proposed Mechanism of Transactivation by Body Burden Dioxin of Herpes Simplex Virus (HSV) Genes Might be Responsible for Weakening the Host Antiviral Defense. *Organohalogen Compounds*. 09/2014; vol. 76, pp. 289-292 (2014).

Ilya Tsyrov, C.S.T. Woo, V.P. Martin, I.N. Shur Modification of CYP2B6-mediated site of metabolism on Artemisinin molecule as a way to prolong its maximal antimalarial efficacy. *International journal of infectious diseases: IJID: official publication of the International Society for Infectious Diseases*. 04/2014;

Ilya Tsyrov. Xenobiotical virology: novel mechanistic concept of hazardous human viruses upregulation by body burden level of dioxins via AhR-mediated transcriptional pathway. *International journal of infectious diseases: IJID: official publication of the International Society for Infectious Diseases* 01/2012; vol. 16:e115.
